

Microsoft Data Strategy Assessment (DSA)

Before AI can work its magic, the facts need to be right.

Data is a key driver of growth and innovation. Yet many organisations face the challenge of aligning data quality, compliance and infrastructure to fully support digitalisation and AI. Without a clear strategy, opportunities remain untapped and risks persist.

This is where the **Microsoft Data Strategy Assessment (DSA)** comes in. It provides a structured review of your data landscape, identifies gaps and delivers a clear roadmap. The result: a solid foundation for informed decision-making, cost optimisation and secure innovation – preparing your organisation for the successful use of AI.

How strategy pays off for you

Better decision-making through precise data insights

Greater efficiency: break down silos and optimise resources

Cost advantages: uncover inefficiencies and streamline infrastructure

Security & compliance: ensure GDPR, ISO & governance standards are met

Pure innovation: accelerate new AI use cases

The best moments to get started

The Microsoft Data Strategy Assessment is particularly valuable when you are at a strategic crossroads:

- **Before introducing AI solutions:** Ensure data quality, processes and infrastructure form a strong foundation for successful AI projects.
- **During growth & expansion:** Align your data strategy to new business areas and scale without inefficiencies.
- **When facing compliance or performance challenges:** Minimise risks, meet regulatory requirements and resolve bottlenecks in your data infrastructure.
- **Ahead of a cloud migration:** Identify which data structures should be modernised and move to the cloud with a clear roadmap.

Your individual **AI roadmap** in just 2 weeks.

 Your time investment: approx. 10 hours

1. Define your goals

We begin by identifying your key objectives, challenges and pain points.

4. Deliver the roadmap

Finally, you receive a tailored roadmap – including a cost and benefit estimation for your specific case.

Questionnaire, interviews & workshops (approx. 3.5 days)

2. Assess the status quo

Where does your organisation stand today? We review the current situation and evaluate feasibility.

3. Shape the target architecture

We provide a recommendation for a future-ready data architecture that matches your needs and drives your business forward.

Total duration: around 2 weeks

Expertise that turns your data into a business driver

As a long-standing Microsoft partner with extensive cloud and AI expertise, SoftwareOne offers vendor-agnostic consulting that is firmly aligned to your business objectives. Our commitment: a tailored roadmap that is pragmatic, efficient and quickly actionable.

Your next step

Get your data future-ready.

Start your **Data Strategy Assessment** today and secure your individual roadmap!
